

Vessels

Charis' Material list

Materials list:

Basic sewing skills and a machine capable of zigzag stitching. Basic sewing supplies. You do not need free motion machine quilting skills for this project...straight stitching works just as well.

*You will need 1/2 yard of fabric for the outside of each vessel and 1/2 yard for the inside of each vessel. You will also need 1/2 yard of any type of fusible batting for each vessel. If you want to use some batting pieces that are not fusible then bring some double sided misty fuse or any other double sided fusible web. We may have time to make two vessels. Two different patterns will be given and instructions for both will be gone over.

*OR...if you have an old quilt or a rejected quilt that you'd like to make into a vessel you can use that instead of the fabrics and battings. Just make sure your piece is 1/2 yard in size.

*Threads, an assortment of colors to compliment or contrast with your fabric.

*Any embellishments you'd like to try. Angelina fibers, decorative threads, tulle or organzas, papers, ...really anything goes.

*Braids and trims are optional

**A \$5.00 materials fee will be charged for Paverpol and patterns.

Vessels using Wash-Away embroidery stabilizer From Oct 2012 Quilting Arts magazine- Kalynn's Material List

Your sewing machine in good working order.

Darning foot for free motion...However, if you don't know or want to do the free motion straight stitching should work.

The thread used in the stabilizing stitching will show, so maybe this is where you want a shiny "Sliver" or metallic thread.

For one bowl 6"-9"

I will supply you with 2 sheets of the wash away stabilizer.

Vase or jar with a base of 4"-5" in diameter

Colored pencil

Angelina fibers

Yarn, trims, scraps of fabrics

Wool, roving, approximately 2 cups

40 weight polyester embroidery thread

New 90/14 sewing machine needle

Colander or bowl

Optional items

Beads and other trims to be applied to the edges or on the vessel surface.
