Katherine Gyorfi folds and stitches in Rami Kim's workshop Fabulous Folded Flowers.

Origami Flowers in Abundance

Rami Kim “wowed” the Guild at the November meeting. All the little tucks and folds in her beautiful silk creations were simply stunning. Rami uses fabric folding techniques, similar to origami, to add dimensional elements on quilts and garments.

Coming from a background in molecular endocrinology, Rami took an abrupt turn about 15 years ago, when she decided working with fabric was more fun than working in a laboratory. With two teenage daughters, it is amazing that Rami is able to produce so much fabric art. She and her husband and daughters live in the Sacramento area.

The portion of the program when Rami displayed her garments was a special treat for everyone, especially the lucky ones who got to model the clothes! Using mainly silk fabrics for her garments, Rami creates beautiful designs and patterns in the clothes she makes.

Prior to her lecture, Rami taught a two-day class in flower folding to a group of eager students. A very good teacher, Rami was both challenging and helpful, and made the class very enjoyable.

President's Message

Several members spent a truly enjoyable two days in Rami Kim's Fabric Origami class, learning new ways of folding fabric and embellishing both quilts and clothing. During these two days, there were moments of complete quiet (believe it or not!), joking good humor, and perhaps occasionally a little frustration. It made me think about a quote I had read in a novel entitled *A Single Thread* by Marie Bostwick. She writes, "No matter how untutored or timid she may be, when it comes to quilting, everyone is an artist. Expertly, or innocently, or inadvertently, the quilter cannot help but reveal something true." This seems to me to be one of the finest definitions of a quilter that I have ever read. I hope I remember this when the creative process is on vacation.

On a more practical note, the bylaws were presented to the membership and were accepted unanimously by those present at the October meeting. A new position was created by these bylaws—Special Programs Chair. I have asked Sylvia Edwards to fill this position until the next elections and she has agreed to do it.

Thank you, Sylvia!

The committee will meet after the holidays to organize Policies and Procedures. I hope to have them ready for your approval in February.

A special thank you to everyone who has contributed a comfort quilt or quilt of valor this year. I hope that during the holidays, we reflect on how lucky we are and how good it feels to help someone in need of comfort.

Challenge 2009: It's Easy Being Green

Climate change. Global warming. Disappearing rainforests. Melting ice-caps. Carbon footprint reduction. Renewable energy. Alternative energy. Energy independence. Energy conservation. Plug-in cars. Solar. Wind. Waves. Fuel-cells. Technology. Nature. Clean air. Clean water. Reduce, reuse, recycle, rot. The words and ideas are in the news every day. Going green is an important challenge for each of us, our country, and the world community. Hopefully, Pacific Piecemakers will find “going green” with our quilts a fun and engaging challenge as well.

Festival of Trees

Thanks to everyone who made such beautiful items for Festival of the Trees. It has been inspiring to see the craftsmanship and design sense that has gone into these items. Thanks to everyone who worked at the Festival and squished in behind the tables and shared our love of our chosen art with Art Center visitors. A special thank you to Carol Tackett and Claire McPherson for sharing their experience and their strong backs on behalf of GAC and our guild. In the unlikely event that a few items don't sell, they will make an appearance at the December luncheon at very friendly prices so don't despair if you didn't get all your shopping done.
